

MotherShield

MotherShield is a symbol of the Mother's active protection that gently but with profound strength clears any obstacles from our path of light. The symbol is like a radiant shield that protects us by transforming energies around us so we can walk the path with confidence and protect others on the path. Using this symbol on the Cauldron can help us to feel strong, confident and centred. On the Chalice centre the symbol can help us to trust that we are protected, and that our path is to help others. On the Star centre the symbol can protect those of us who are over-sensitive to the energies of Modern life. On the Archetype points the symbol can enhance the Champion aspect of the Maiden, increase the protective nature of the Mother, help clear the blocks of the Enchantress and create a safe, protected 'energy space' for the Crone to rest.

Enjoy! Love and hugs, *Miranda x*
