

MotherService

This symbol of beautiful clear yellow feminine energy bathes us in happiness and well-being and opens us up to the Mother's purpose for us. This is a symbol of the joy, happiness and higher learning that comes with sacred service. Using this symbol on the Cauldron can help us to feel happy and content to serve. On the Chalice centre the symbol's energies can call to us those who are meant to walk the priestess path with us in joy and love. On the Star centre the symbol can bring illumination of our path and wisdom from higher levels of being. On the Archetype points the symbol can bring clarity and higher learning to the Maiden, selfless service to the Mother, enhance the 'priestess' within the Enchantress and bring awareness of our soul destiny of sacred service to the Crone.

Enjoy! Love and hugs, *Miranda x*
